

National Workshop on Content Management System Using Drupal 22nd to 24th August, 2016

Information and Library Network Centre
(An Autonomous Inter-University Centre of UGC)

About INFLIBNET

Information and Library Network (INFLIBNET) is an autonomous Inter-University Centre of the University Grants Commission (UGC). The objectives of the Centre are to modernize libraries and information centres for information transfer and access, to support scholarship, learning and academic pursuit by establishing a national network of libraries and information centres in universities, institutions of higher learning and R & D institutions in India. Creation of national union database (IndCat), development of an integrated library management software (SOUL 2.0), human resource development, on-site training, providing bibliographic information services, extending technical help and guidance from time to time to academic libraries in automation and networking are some of the major activities of the Centre. The Centre provides access to e-resources and Internet connectivity to universities under the UGC-Infonet connectivity programme and UGC-Infonet Digital Library Consortium. The Centre also provides access to 6000+ e-journals and 97,000+ e-books to the colleges in India through programme entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)".

About the Workshop

ICT has brought a revolution in all walks of life. Organising and disseminating web content is a challenging task for the library and IT professionals. Integrating various library resource and make it accessible to the user community is vital to an organisation or information centre. Several open source software are available to manage the web content in a static / dynamic way. Drupal is the world's leading open source Content Management System (CMS) software. It offers advantage of superior coding and flexible customisation. Many organisation are using Drupal software for developing static / highly interactive content management system and website. The large no of user community spread all over the world to solve issues and problems with detailed documentation on installation, configuration and integration of modules. The INFLIBNET Centre is organising three-day workshop on Content Management System using Drupal during 22-24 August, 2016 at INFLIBNET Centre, Gandhinagar.

Objective of the Workshop

The main objective of this workshop is to enable the participant to develop content management system or website for their institution or library. The workshop includes lectures as well as intensive hands-on training, so as to provide both theoretical base and practical skills to the participants. The participant will receive a comprehensive overview on how to build a website or CMS using Drupal including installation, configuration, page layout design and user management, etc.

Topic to be covered in the workshop are as follows

- ✍ Introduction to Content Management System;
- ✍ Drupal fundamental and features;

- ✍ Basic configuration to know before installing Drupal;
- ✍ Drupal installation and configuration;
- ✍ Adding modules and features;
- ✍ User and Content Management;
- ✍ Managing page layouts and themes;
- ✍ Multilingual Content; and
- ✍ Drupal hosting and backup.

Resource Persons

The resource persons are eminent IT/Computer/LIS Scientists/professionals and experts of the country.
