About INFLIBNET

Information and Library Network (INFLIBNET) is an autonomous Inter-University Centre of the University Grants Commission (UGC). The objectives of the Centre are to modernize libraries and information centres for information transfer and access, to support scholarship, learning and academic pursuit by establishing a national network of libraries and information centres in universities, institutions of higher learning and R & D institutions in India. Creation of national union database (IndCat), development of an integrated library management software (SOUL 2.0), human resource development, on-site training, providing bibliographic information services, extending technical help and guidance from time to time to academic libraries in automation and networking are some of the major activities of the Centre. The Centre provides access to e-resources and Internet connectivity to universities under the UGC-Infonet connectively programme and UGC-Infonet Digital Library Consortium. The Centre also provides access to 3800+ e-journals and 80,000+ e-books to the colleges in India though programme entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)".

Aims and Objectives of the Workshop

The programme is aimed at library professionals looking after and managing the e-resources sections.

- ❖ To help the participants in understanding the key concepts of e-resources management, i.e., purchasing, management, promotion and evaluation of e-resources;

- ❖ To understand the role of publishers & intermediaries (agents, aggregators etc) in e-resources management;

- ❖ To provide better visibility of e-resources, linking of e-resources and promote the use of the e-resources;

- ❖ To evaluate the e-resources subscribed by the institutions.

Major Topics

The following major topics will be covered in the programme:

- ❖ Types of e-resources and managing e-resources (Life-cycle of e-resources)

- ❖ Access mechanism and restrictions

- ❖ Licensing of e-resources: IPR issues, Important clauses in e-resources licensing, key issues of licensing, and negotiations

- ❖ Metadata creation of e-resources

- ❖ Search and discovery of e-resources

- ❖ Standards related to e-resources discovery and management (search protocols, OpenURL standards, KBART standards etc.)

- ❖ Evaluations of e-resources: COUNTER Statistics, Webpage statistics, discovery statistics, OpenURL redirection statistics

- ❖ Economics of e-resources: List price, cost recovery, cost avoidance, cost per article, etc. Standards in statistics: COUNTER Reports, formats and what they represent, SUSHI protocol for harvesting usage statistics

- ❖ Case study of evaluation of usage statistics

- ❖ CORAL: Open source ERM Software (Resources, Licensing, Organization, Usage Statistics)

Resource Persons

The lecturers are prominent research scientists/professors working in the field of e-resource management.

Target Participants
