Advanced Training Programme on Configuration and Management of Digital Library using DSpace

04th - 06th October, 2017

Information and Library Network Centre
Gandhinagar
About INFLIBNET

Information and Library Network (INFLIBNET) is an autonomous Inter-University Centre of the University Grants Commission (UGC). The objectives of the Centre are to modernize libraries and information centres for information transfer and access, to support scholarship, learning and academic pursuit by establishing a national network of libraries and information centres in universities, institutions of higher learning and R & D institutions in India. Creation of national union database (IndCat), development of an integrated library management software (SOUL 2.0), human resource development, on-site training, providing bibliographic information services, extending technical help and guidance from time to time to academic libraries in automation and networking are some of the major activities of the Centre. The Centre provides access to e-resources and Internet connectivity to universities under the UGC-Infonet connectively programme and UGC-Infonet Digital Library Consortium. The Centre also provides access to 6500+ e-journals and 97,000+ e-books to the colleges in India through programme entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)".

Aims and Objectives of the Workshop

DSpace (Open-source Software) is a well-known software for creation of Institutional Repository and Digital Library. There are number of workshops being conducted on DSpace but most of them cover only basic of DSpace and its Installation. Whereas this unique workshop will address the issues of participants who are already managing DSpace instance and in need of more insights, and in-depth knowledge on how to further enhance the usage, its maintenance and customization.

Major Topics

- IR Using DSpace and Live Installation
- DSpace Advanced configuration
- Layout and CSS customization
- Search Parameters and Email Configuration
- OAI Interface
- Index generation
- Custom Item Display
- Custom Input Forms
- Facets
- Controlled Vocabulary
- Data storage management
- PostgreSQL Data Security feature
- Tomcat Security feature
- Bulk MetaData Import/Export
Backup
Version Up gradation
Statistics generation
Google Analytics Implementation

Resource Persons
